Important notice

Date: [Date]

Dear Customer,

This is an important notice of an increase to a charge that is already included within your daily standing charge; the Transmission Network Use of System (TNUoS) charge. This is due to a sharp increase to forecasted charges released by the National Energy System Operator (NESO), the organisation that oversees Great Britain's electricity & gas networks.

The increases are industry-wide, determined centrally by NESO, and outside the control of energy suppliers.

What are TNUoS charges?

The charges have been confirmed by NESO and approved by Ofgem to fund the cost of building, maintaining, and reinforcing the UK's electricity transmission network.

The increased funding is required to support major upgrades to the electricity grid, including supporting renewable energy projects, improving security of supply, and increasing the capacity for future demand.

Energy suppliers, including YGP, have no control or influence over these charges, and this increase must therefore, reluctantly, be passed through to all electricity bills.

How much is the increase & how will this appear on my bill?

This will be included in an increase to your daily standing charge from the 1st of April 2026:

Your daily standing charge until 31st of March 2026 is: [DSC]

Your daily standing charge from 1st of April 2026 will be: [New DSC]

How does this impact my contract with YGP?

This change does not affect your contractual agreement with YGP. The increased TNUoS charges will be passed through on your bill pursuant to the whole of clause 6.6, including clauses 6.6.4 and 6.6.6, of your terms and conditions a copy of which can be found online at: www.ygp.co.uk

For transparency, we have created a dedicated web page that you can find lots more information, including external sources that you may find useful: www.ygp.co.uk/tnuos-details

Regards,

YGP Customer Experience Team

Please Note: Calls may be recorded and /or monitored for security and training purposes. Charges may vary depending on your network provider. Please check call-costs before phoning.
